

HEADSET EXTENSION LEAD

Fulbrook Lane, Sherbourne,
Warwick, CV35 8AR, ENGLAND

Tel: 01926 624800
Fax: 01926 624900

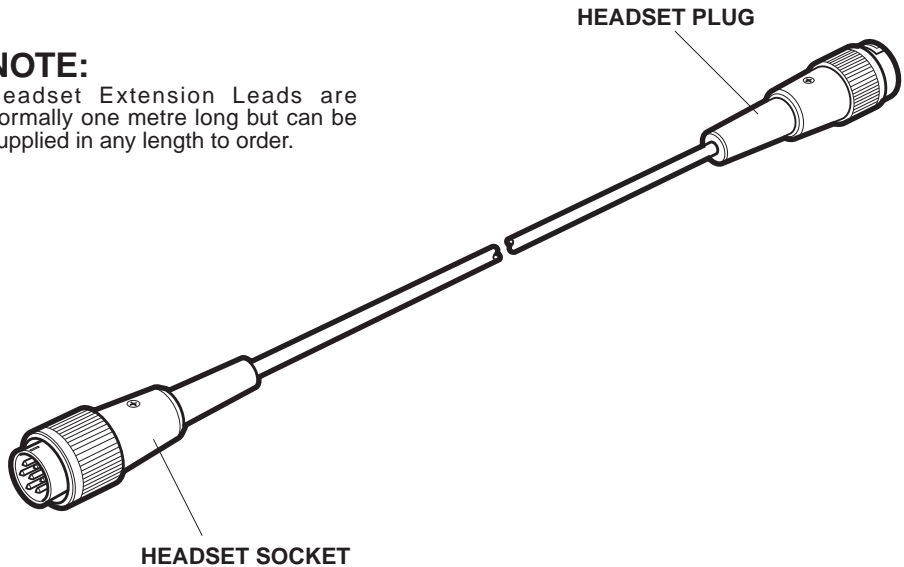

REF: E027-1 21-10-02

INSTALLATION INSTRUCTIONS

The Headset Extension Lead provides a simple means to extend the length of headset leads or radio interface leads.

NOTE:

Headset Extension Leads are normally one metre long but can be supplied in any length to order.

WARNING:

The connectors fitted to the headsets enable the leads to be locked together during flight.

Always utilise the bayonet-locks to prevent accidental separation and always check that they are engaged before use.

IMPORTANT

READ THIS INFORMATION CAREFULLY BEFORE
